

# **Dog Behaviour Problems?**

*– let Tamsin-Jane take the lead.*

**While** you may know us for our five-star rated Dog Day Care facility in the village of Over, you may not be aware that our founder and business owner Tamsin-Jane is a degree qualified **Canine Behavior Practitioner**.

**That's a posh name for a *real* Dog Behaviorist!**

One of the main problems within canine care industry is that many people 'appoint' themselves as dog behaviorists with little or no qualification and, in many cases, minimal actual 'in field' dog handling experience. Those fresh out of college will tell you that it's the academic qualifications that count. Those lacking in these formal accreditations will attempt to persuade you that a history of handling experience is all that is necessary.

In fact, reading, understanding, knowing and implementing the tools to correct undesirable dog behavior is a very precise science and a craft that takes many years to perfect.

Tamsin-Jane Sewell has a BA (Hons) degree in Professional Practice in Canine Behaviour and Psychology and a successful career in behavior assessment and correction spanning more than 15 years. In the last ten years she has handled two very large packs of dogs in her daycare environment which runs into, quite literally, thousands of hours with a hugely diverse and comprehensive spectrum of almost all breed types.

So, if your 'best friend' pulls on lead, barks at strangers, shows aggression towards other dogs, demonstrates obsessive behavior such as tail chasing/jumping on shadows, finds it difficult to be left alone at home or could just do with a little bit of targeted training, then why not call Tamsin-Jane? After an initial no-obligation chat, your furry friend will need to be formally assessed according to CFBA professional guidelines. This assessment will be arranged for a time to suit you, and will usually take place at our dedicated indoor and outdoor behavior centre alongside Norman's Dog Daycare in the village of Over. Home visits are also undertaken locally and are priced accordingly.

Membership of the CFBA is the recognised professional accreditation standard that is adopted by Veterinarians and pet insurance companies alike. Through referral from your Vet, Tamsin-Jane has the ability to work with your pet insurers to process a direct claim (conditions apply).

Give Tamsin-Jane a call\* during office hours on **07764 959238**

\*There is only one Tamsin (as many of our canine friends will tell you), so *please* leave a message if she misses your initial phone call. She'll be back to you within 24 hours maximum: she's very well-behaved.

# Norman makes things normal.
